EDUARDO ADAME SALLES

eadamesalles@gmail.com Brazil April '03 eadamesalles adamesalles eadame.ovh

Education

› PhD. in Statistics Sep/2026 – Aug/2030
The Univeristy of Edinburgh
Edinburgh, Scotland, UK

Advisors: Jordan Richards (UoE) and Miguel de Carvalho (UoE).

Fully-funded studentship estimated in 200k GBP (≈ 1.4M BRL by May 2026).

› MS. in Applied Mathematics and Data Science - Grade: A Mar/2025 – Jul/2026
School of Applied Mathematics, Getulio Vargas Foundation (FGV EMAp)
Rio de Janeiro, Brazil

Advisors: Luiz Max Carvalho (FGV EMAp) and Flávio B. Gonçalves (UFMG).

Full scholarship estimated in 220k BRL (≈ 40k USD by May 2025). Fast-tracked graduation (2-year course).

Graduate-level (MS. and PhD.) courses taken with grade A during undergraduate studies: Advanced Linear Algebra, Numerical Analysis, Visual Data Analysis, Computational Statistics, Statistical Inference, Probability Theory, Real Analysis, Mathematical Biology, Stochastic Processes, Stochastic Calculus and Causal Inference.

› BS. in Data Science and Artificial Intelligence - Grade: 9.31/10 Feb/2021 – Dec/2024
School of Applied Mathematics, Getulio Vargas Foundation (FGV EMAp)
Rio de Janeiro, Brazil

Advisor: Luiz Max Carvalho (FGV EMAp)

Awarded with the Undergraduate Research Distinction—only one student per graduating class.

Full scholarship from FGV's Center for the Mathematics and Science Development (FGV CDMC), achieved by previous awards (Math Olympiads) during high school. Estimated in 300k BRL (≈ 55k USD by May 2025).

Academic Experience

› Teaching Assistant Feb/2022 – Dec/2025
School of Applied Mathematics at FGV

Courses: Intro to Computing (Autumn 2022, Autumn 2025), Multivariate Calculus (Spring 2022, Summer 2023, Summer 2024, Summer 2025), Data Science Techniques and Algorithms (Autumn 2023), Statistical Inference (Spring 2023, Autumn 2025), Intro to Real Analysis (Grad-level, Summer 2024), Statistical Modelling (Autumn 2024) and Numerical Analysis (Grad-level, Spring 2024).

Professional Experience

› Research Assistant / Consultant Jul/2023 – Jun/2025
The World Bank

I worked in developing, applying, fitting, improving, and optimizing econometric models for geospatial land use data in Latin America and the Caribbean (LAC). This project was supervised by Professors Marcelo Sant'Anna (FGV EPGE), Rafael Araújo (FGV EESP), and Francisco Costa (Univ. of Delaware). I handled an encrypted dataset comprising tens of millions of entries, for which I was also responsible for data cleaning and processing, focusing on scalability with Polars, PySpark, PyTorch and Nvidia CUDA.

Research

[1] **E Adame**, D Csillag, and G T Goedert. "Image Super-Resolution with Guarantees via Conformalized Generative Models". In: *Advances on Neural Information Processing Systems*. 2025.

[2] R Araujo, A Bragança, F Costa, M Sant'Anna, **E Adame**, and F Gentile. "Quantifying the Carbon Preserved by Protected Areas in the Amazon". In: *Under review for Nature Climate Change* (2025).

[3] G T Goedert, J Genari, I Pim, **E Adame**, F Adeildo, D Csillag, R Bonidia, A C P L F de Carvalho, L E Coelho, and C Struchiner. "OLIM: Open-Source Active Learning and Conformal Prediction for Healthcare AI". In: (2026). In preparation.

[4] **E Adame**, F B Gonçalves, and L M Carvalho. "Computation for the Normalized Power Prior". In: (2026). In preparation.

Awards

🏆 Undergraduate Research Distinction - School of Applied Mathematics at FGV, 2025.

🏆 ICIAM Fellowship CNMAC 2024 - International Council for Industrial and Applied Mathematics, 2024.

🏆 Scientific Initiation scholarship. Project: "Shape-constrained Gaussian Processes" - National Institute of Mathematics Science and Technology (INCTMat), 2023.

🏆 Silver Medal - Elon Lages Competition - Brazilian Mathematical Olympiad (OBM), 2022.

🏆 Gold Medal (1st Place) - Science, Technology and Innovation Fair of the Rio de Janeiro State (FECTI) - 2021.

🏆 Silver Medal - Brazilian Mathematical Olympiad of Public Schools (OBMEP) - 2019.

🏆 Bronze Medal - Brazilian Mathematical Olympiad of Public Schools (OBMEP) - 2018.

Additional Information

I have over 8 years of experience programming in Python and JavaScript, with strong proficiency in R, Stan, and C++. I work extensively with CUDA-accelerated libraries and the data science ecosystem, including NumPy, Pandas/Polars, Matplotlib, and SQL.

I use Unix-based systems daily and have deep expertise in cloud infrastructure management (VPS administration), web development, and production deployments, including DNS configuration, internet protocols, and server orchestration.

I scored 108/120 on TOEFL iBT (27 reading, 28 listening, 27 speaking, 26 writing) (Oct/25).

A comprehensive archive of my presentations, teaching materials, and talks is available at `https://eadame.ovh/outreach`.
